

How to have the RAP automatically created in Healthcare Assistant

The Healthcare Assistant program can automatically create a RAP and Final Claim for a Medicare PPS patient as long as certain criteria are met. The following document will describe the three (3) criteria needed for creating a RAP automatically, along with what is needed for the Final Claim to be created automatically.

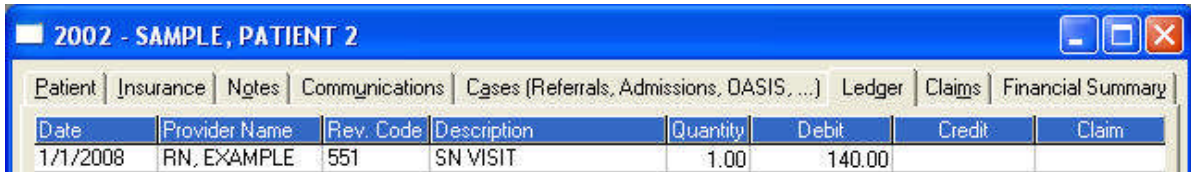

The three steps required to have a RAP automatically created are:

1. Have a Locked Oasis for the episode you are attempting to create a RAP for.
2. Have a 485 in the Healthcare Assistant program that has a check mark in the box that says Signed by Case Administrator.

How to have the RAP automatically created in Healthcare Assistant

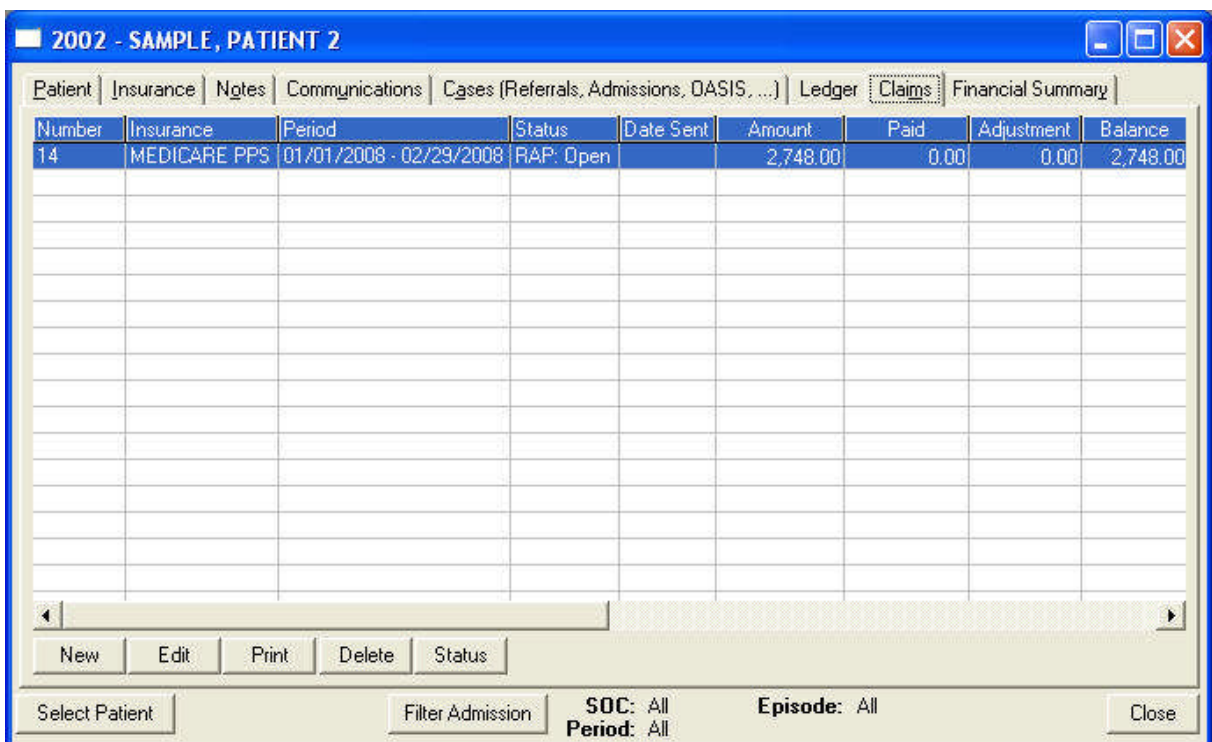

The information provided in this document is intended to help you solve basic and common problems with Healthcare Assistant. If you do not feel confident to follow and/or apply the proposed solutions please contact Healthcare Synergy Technical Support to better assist you.

3. Have a First Billable Visit posted and entered into the patient's Ledger. (In the event of a recertification, the first billable visit may or may not occur on the first day of the recertification.)

Date	Provider Name	Rev. Code	Description	Quantity	Debit	Credit	Claim
1/1/2008	RN, EXAMPLE	551	SN VISIT	1.00	140.00		

Once you meet all three (3) of these criteria, if you click on the claim's tab you will get a RAP showing up in the Claims tab of the patient's record.

Number	Insurance	Period	Status	Date Sent	Amount	Paid	Adjustment	Balance
14	MEDICARE PPS	01/01/2008 - 02/29/2008	RAP: Open		2,748.00	0.00	0.00	2,748.00
